Editor-in-Chief: Gerhard Chroust

Melker Stiftskeller, location of the Information Meeting, April 26, 2014

Intentions

Two IFSR board sessions -and particularly the IFSR Board session on 26 March 2008 in Vienna, Austria-, several Executive Committee (EC) of the IASCYS sessions (mostly by e-mail), and many discussions with many members of IFSR member associations around the world, and finally the stand of the first General Assembly (GA1) at Chengdu in October 2010 helped us to the official IASCYS establishment with - the statutes of the Academy, - the *new criteria* of recruitment of the Academicians, - the ethical point of views of the Academicians during the first GA1 discussions.

→ The 2 first major missions of the IASCYS are,
through the co-ordination of the actions of the IFSR member associations:

- **to create a basis of an internationally accepted frame-work curriculum** in systemics and cybernetics,
- **to create an auditing process aimed at validation and promotion of education** in systemics and cybernetics.

Communicating Communications***

2014 IEEE Global Engineering Education Conference : **EDUCON 2014**

www.jessicafoleywriting.wordpress.com

For achieving parts of its missions (<http://iascys.org>), for the second time, with the BCSSS, the Academy co-organized the **PhD day during the 2014 EMCSR in Vienna (Austria)**.

A particular attention was again worn in the composition of the jury, by our General Secretary. With regard to the first edition (2012) the jury was half renewed pointing to the experts diversity of origins and skills.
