

Biographical Sketch of Ben M. Chen...

Ben M. Chen received his B.Sc. degree in mathematics and computer science from Xiamen University, China, in 1983, M.Sc. in electrical engineering from Gonzaga University, USA, in 1988, and Ph.D. in electrical and computer engineering from Washington State University, USA, in 1991. He is currently a Professor of Mechanical and Automation Engineering at the Chinese University of Hong Kong (CUHK). He was a Provost's Chair Professor in the Department of Electrical and Computer Engineering at the National University of Singapore, before joining CUHK in 2018. He was an Assistant Professor in the Department of Electrical Engineering at the State University of New York at Stony Brook, USA, in 1992–1993. His current research interests are in control theory, unmanned systems and their applications.

Dr. Chen is a Fellow of IEEE; Fellow of Academy of Engineering, Singapore; Fellow of Chinese Association of Automation. He has authored/co-authored over 500 journal and conference articles, and a dozen research monographs in control theory and applications, unmanned systems and financial market modeling. He had served on the editorial boards of a dozen international journals including *Automatica* and *IEEE Transactions on Automatic Control*. He is currently serving as an editor-in-chief of *Unmanned Systems*, deputy editor-in-chief of *Control Theory and Technology*, editor of *International Journal of Robust and Nonlinear Control*, and an editorial member of *Science China Information Sciences*. Dr. Chen has received a number of research awards. He has been invited to deliver keynote and plenary speeches at international conferences held in USA, China, Canada, UK, India, Malaysia, Australia and Russia. His research team has actively participated in international UAV competitions and won many championships in the contests.
